Analysis

Accessibility to green areas

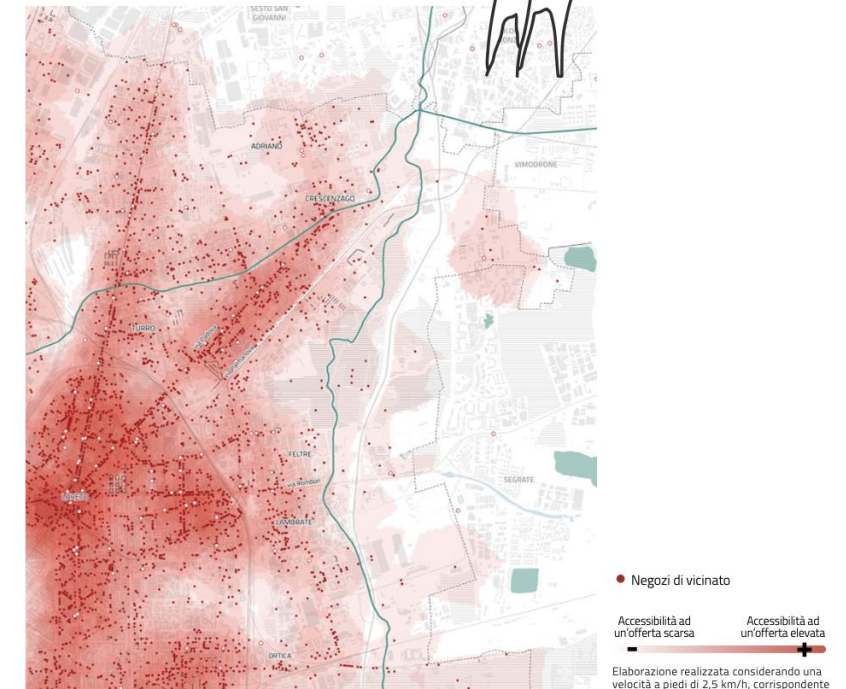

↑ Accessibilità alle aree verdi

Accessibility to public transport

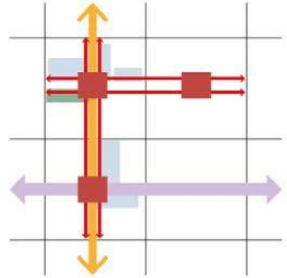

Accessibility to proximity retail

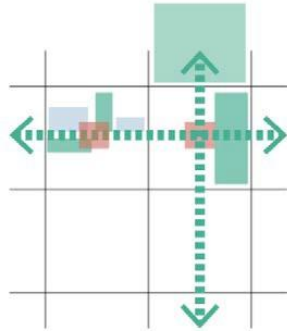

Neighbourhood Atlas - Strategies

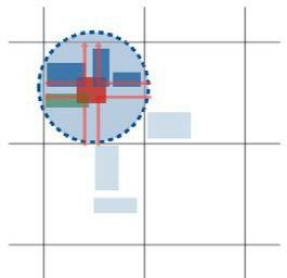

Proximity - A 15 minutes city strategy

Extended infrastructure for human-centered public spaces

Green and blue infrastructure to make room for the environment in the city

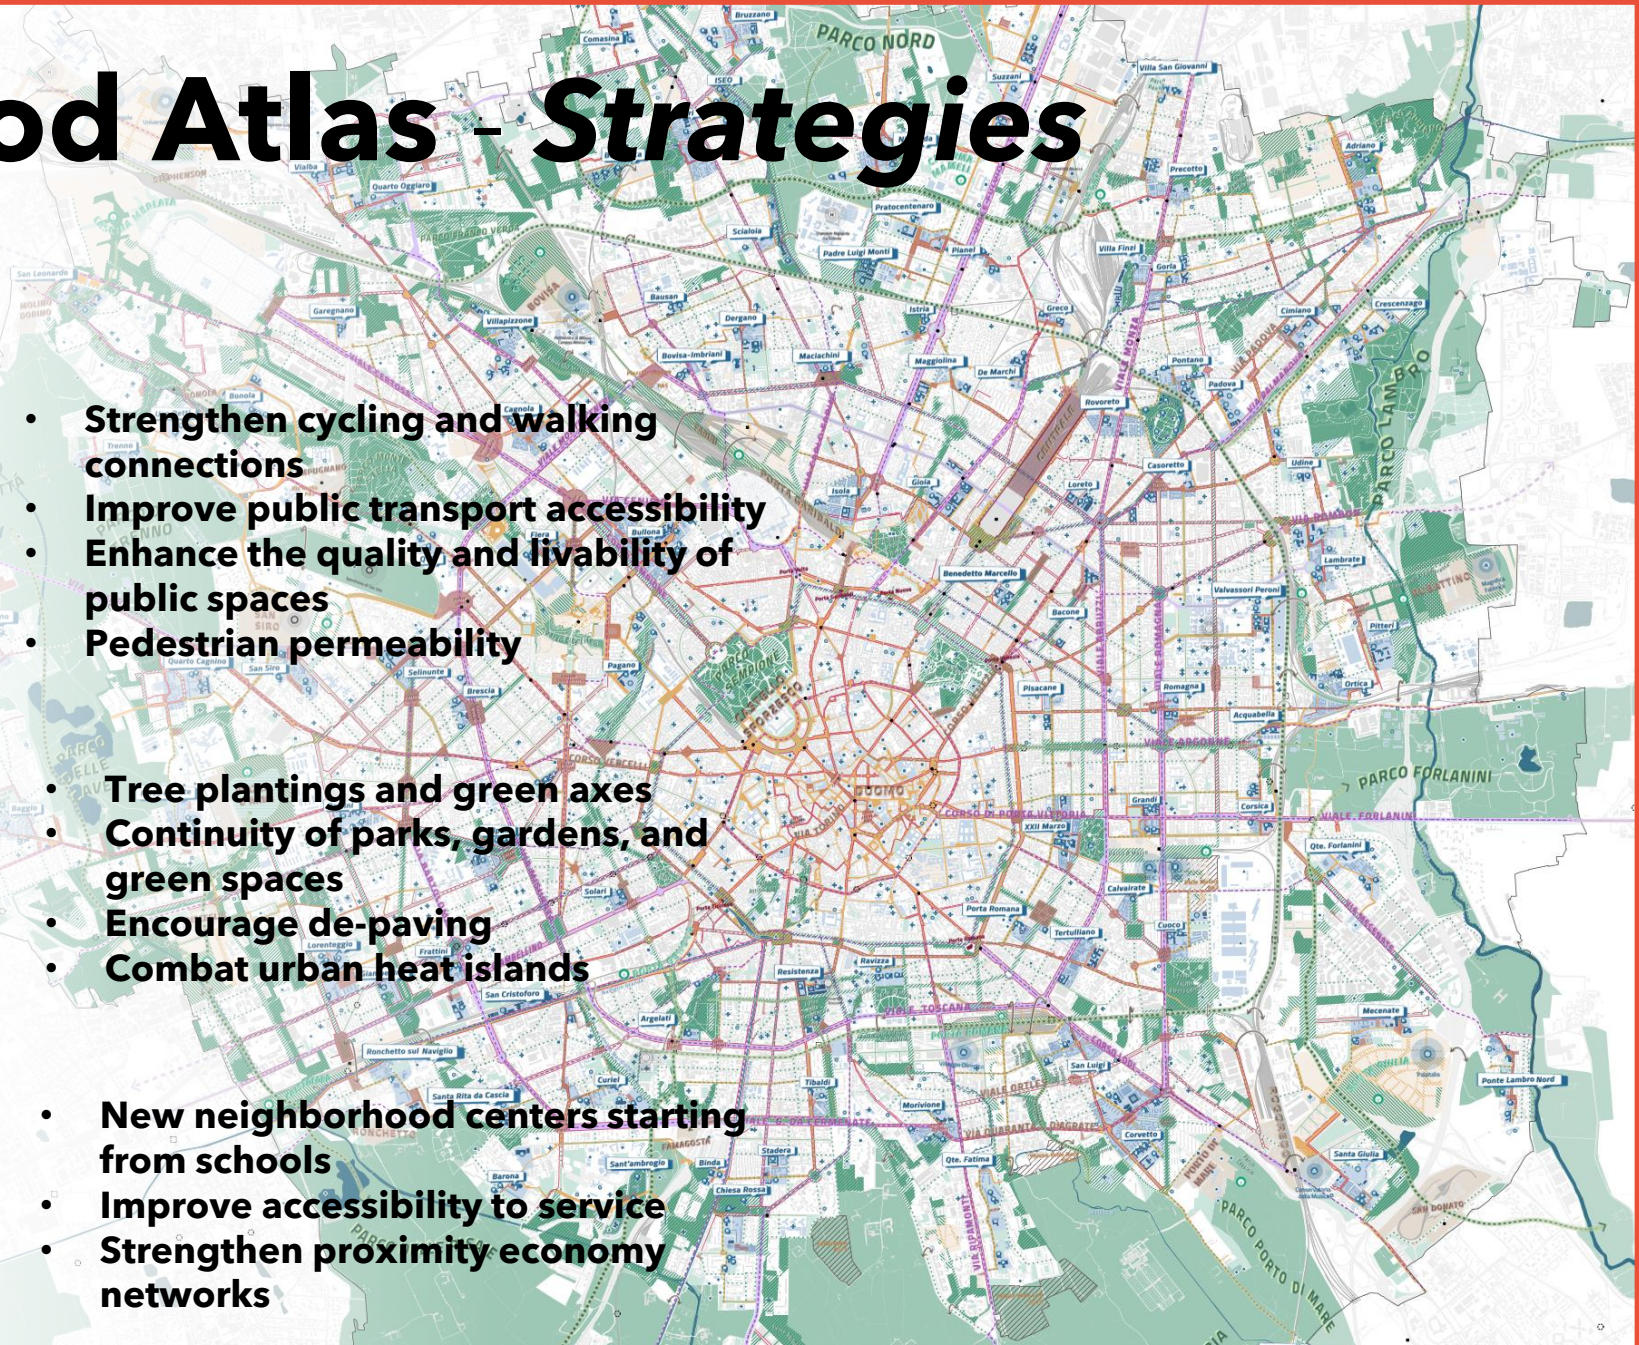

inclusive infrastructure for community spaces and civic networks

- Strengthen cycling and walking connections
- Improve public transport accessibility
- Enhance the quality and livability of public spaces
- Pedestrian permeability

- Tree plantings and green axes
- Continuity of parks, gardens, and green spaces
- Encourage de-paving
- Combat urban heat islands

- New neighborhood centers starting from schools
- Improve accessibility to service
- Strengthen proximity economy networks

Open call - Opportunities

"Piazze Aperte" is a project by the City of Milan, developed in collaboration with the Agenzia Mobilità Ambiente Territorio (AMAT), Bloomberg Associates, the National Association of City Transportation Officials (NACTO), and Global Designing Cities Initiative.

October/December **2019**

February **2023**

Tactical Urbanism *Opportunities*

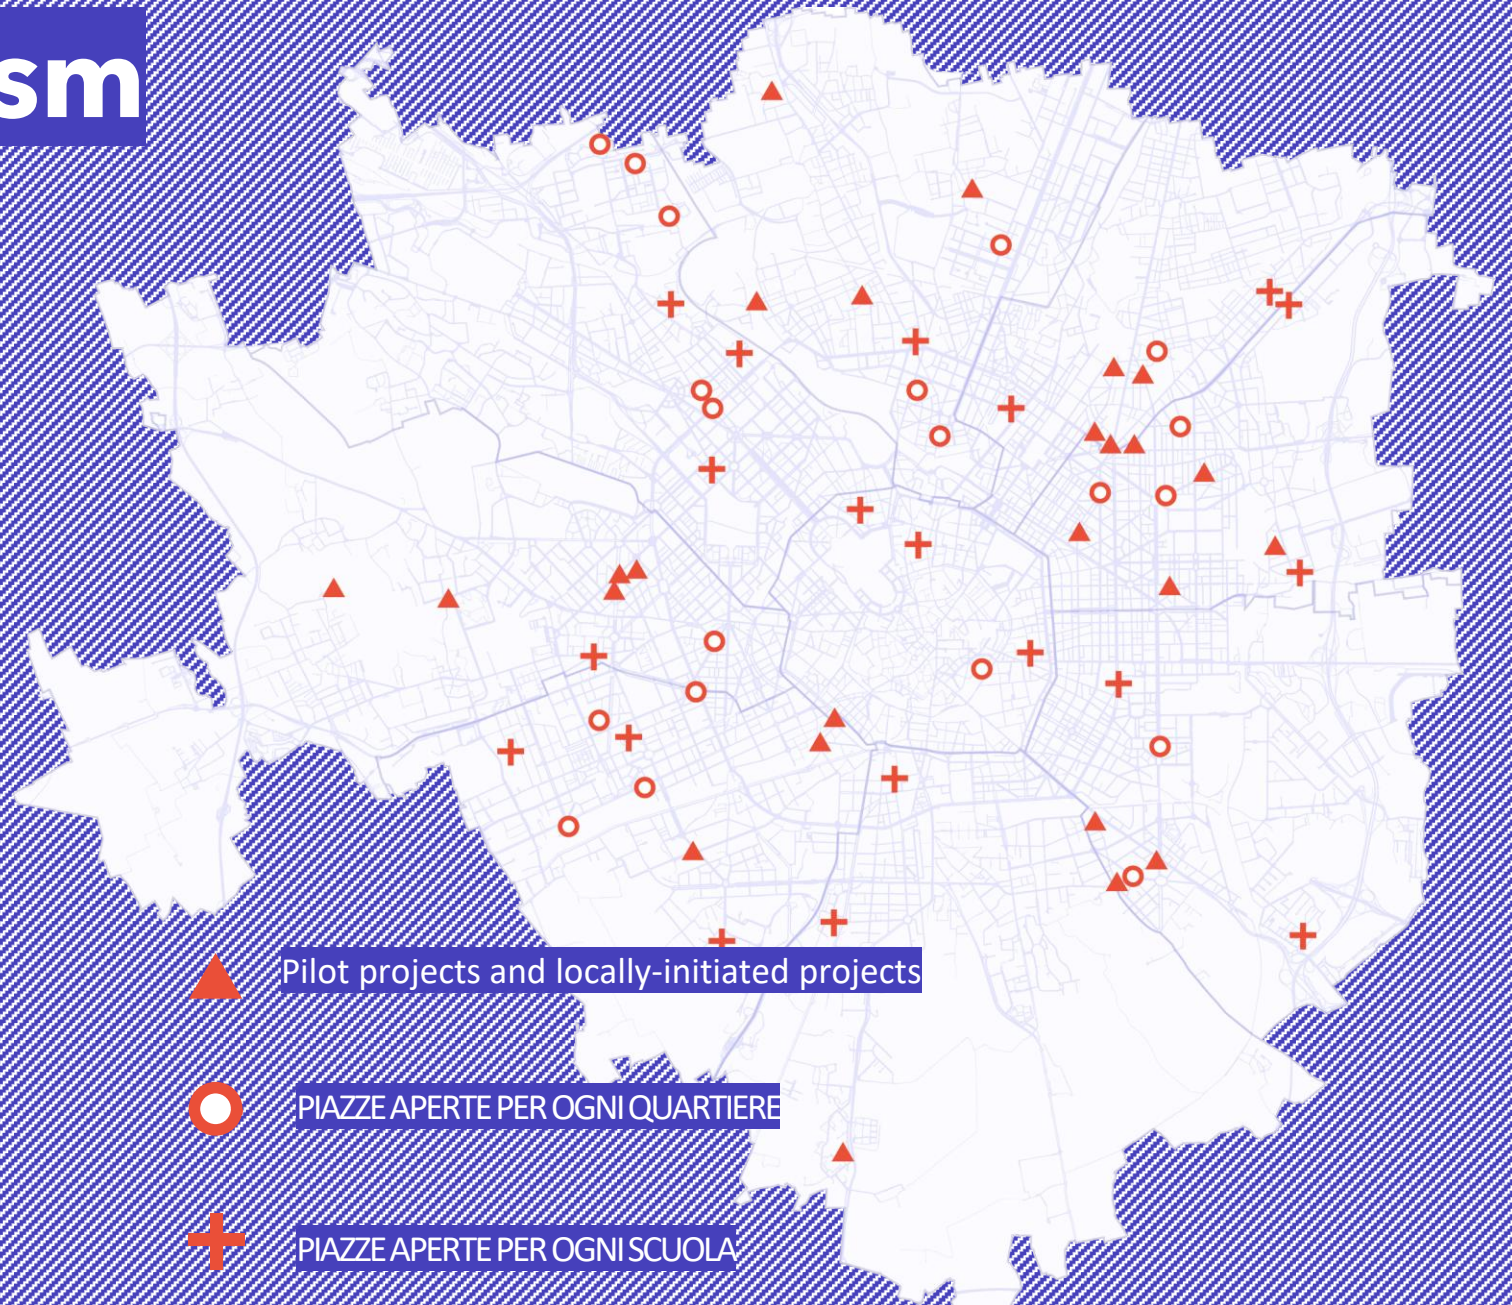

Rapid-intervention approach to redesigning and reclaiming public space:

Immediate improvement of quality and liveability

Temporary and low-cost interventions

Experimental approach with flexible outcomes: an opportunity to test new arrangements

Citizen participation in implementation and maintenance

Piazza Dergano

1st square

Before

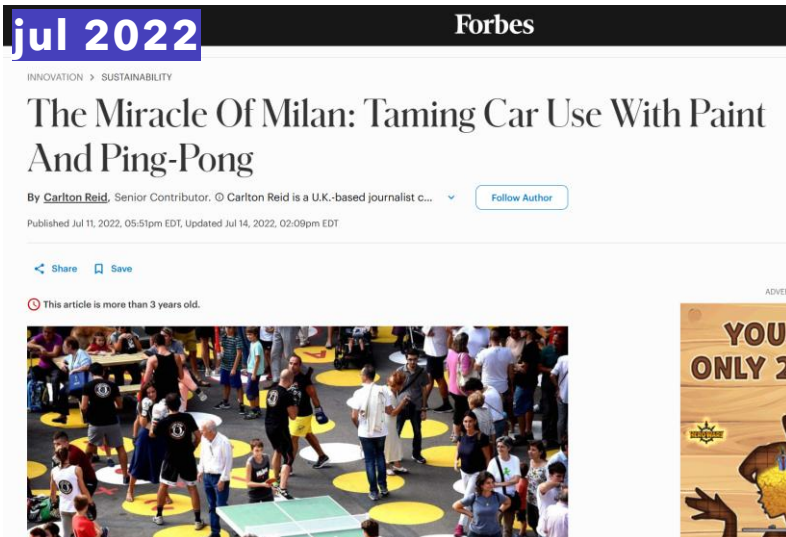

Tactical urbanism

Permanent intervention

Conflicts

Cycle lanes, Salvini attacks: whitewash Buenos Aires"

Tactical urbanism for Angilberto and Belloveso squares. Bassi (Lega party): 'To err is human, but to persist is diabolical'

What becomes of tactical urbanism squares? Migrant camps and withered little trees

Piazza Arcobalena

Before

After - Tactical urbanism

Piazza Arcobalena

Permanent intervention proposal

Addio ping pong e piazze colorate: Milano rifà i suoi spazi pubblici

Dalle piazze tattiche nate con vernici e tavoli da ping pong ai cantieri strutturali che trasformano asfalto in superfici permeabili e alberi: Milano accelera la sua metamorfosi urbana quartiere dopo quartiere.

**How do we turn local conflicts into
opportunities for more inclusive urban
design?**
